# MICRO:BIT TECHNOLOGIES FOR SEEDS OF SCIENCE

Join us for the Micro:bit Seeds of Science Workshop, where you'll learn how to collect soil moisture data and expand into environmental measurements like light and temperature. A fantastic way to bring real-world science into your classroom this National Science Week.

## STEM Links

**Science:** Temperature changes, thermodynamics

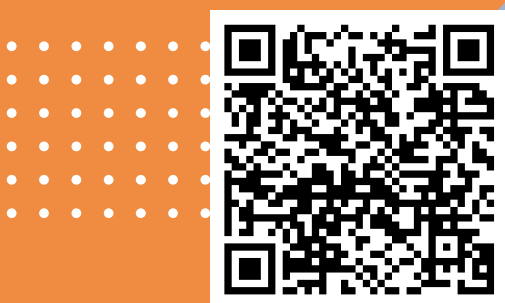

**Maths:** Data logging

**Technology:** sensors, file writing (with **Python** or **block code**), live display.

**June 2nd, 2026**

**4:00 – 5:30pm**

**Helensvale Cultural Centre**

**Register Now:**

[Microbit technologies for Seeds of Science](#)

**Free entry**

**Afternoon tea included**
